WHAT WILL THEY DO ABOUT IT! The voting on the sugar schedule in the Senate vesterday drew out some observations calculated to throw light on the manner in which the Senators themselves look upon the action of their own body on that feature of the Tariff bill.

Mr. Chandler, who probably knows more about speculative legislation than any other member of either House, made the direct charge that Senators have speculated in Sugar stock. "I believe," he said, "that Senators have speculated in Sugar stock," and he protested against of Mrs. Charles E. Sands, of Hastings any final action on the bill until a searching inquiry into the facts had been completed. Of course his object was to further postpone the vote, but he doubtless had reason to believe in the truth of the direct charge he made against the Senators. AN ANARCHIST'S BOMB.

A pupil in one of the public schools in Brooklyn has recently displayed Anarchistic tendencies. He has defield Anarchistic tendencies. He has defield a sovereign contempt for law and order. Yesterday during school hours he made an effort to raise a rebellion in the school, and springing suddenly to his feet uttered a wild, demoniacal, blood-curdling yell that Herr Most might have envied and Buffalo Bill might have admired. Thereupon the Principal of the school seized the offender and began to belabor him with a stout cane on the proper part of his person.

This operation had barely commenced when a terrific explosion was heard in the school loud enough to shatter win-

the school, loud enough to shatter windows and shake the ink bottles on the desk. The young Anarchist was dropped to the floor, the Principal fled in terror from the scene, the scholars scrambled to get out of the schoolroom, and for a time the panic was

fearful. An investigation was subsequently made, and it was discovered that the Hoston.
